FRENCH France PAVILION

Mobile World Congress

24-27 FEBRUARY 2014 HALL 5 - BOOTHS 5B41, 5B61 & 5B71 HALL 8.1 - BOOTH 8.1D41 FIRA GRAN VIA, BARCELONA

ECH

France is a country of talent, of inventors.

IT IS FORTUNATE TO HAVE CREATIVE AND HIGHLY EDUCATED ENTREPRENEURS. FRANCE'S STRENGTH LIES IN ITS AMBITION AND IN A NEW AND GROWING GENERATION OF BUSINESSES AND ENTREPRENEURS. THIS IS A GENERATION THAT BELIEVES IN ITSELF – AND IT SHOULD, BECAUSE IT IS SUCCEEDING SPLENDIDLY.

Jean-Baptiste Rudelle floats crited on the Nasdaq, with an initial valuation of uss_2 billion.

Stéphane Dehoche sells neolane to adobe for us\$600 million to expand operations in europe and asia.

Xavier Niel buys halle freyssinet to build the world's largest incubator/ Accelerator (500,000 sq. ft.).

Bertin Nahum

IS CELEBRATED BY FORBES AS THE FOURTH MOST INFLUENTIAL INNOVATOR AFTER STEVE JOBS, MARK ZUCKERBERG AND JAMES CAMERON FOR HIS SURGEON ROBOTS.

Fred Potter with NETATMO, Eric Careel with withings and RafiHaladjan with sens.se win awards at the consumer electronics show (ces).

Axel Dauchez raises us\$137 million to expand deezer globally.

Today, France is shifting into high gear to take advantage of the digital revolution. The name of this movement is "La French Tech" – a name that speaks to our ambition and our collective excitement.

La French Tech encompasses a generation of forward-looking entrepreneurs who think globally but who are attached to their roots. It is a way of life, a way of doing business. La French Tech is about French *savoir-faire*.

La French Tech is the standard-bearer for French digital stakeholders and communities abroad. Grouped beneath the French Tech umbrella, they can achieve enough critical mass to be seen as a global force to be reckoned with. It will then be up to each player to convert strengths into market share.

La French Tech is a shared effort by French businesses and by the French government which supports them.

Today, La French Tech is out in force at the Mobile World Congress. French startups are proud to be in Barcelona and anxious to demonstrate their products.

#FrenchTech - @lafrenchtech - www.lafrenchtech.com

UBIFRANCE

UBIFRANCE, the French agency for international business development, comes under the aegis of France's Ministry for Economy and Finance and of Ministry for Foreign Trade. UBIFRANCE lies at the heart of France's public-sector export-support framework.

With 80 offices in 70 countries, UBIFRANCE offers a comprehensive range of products and services aimed at accompanying French-based companies in their development on export markets:

- Knowledge-based products and services, from business information to consultancy and monitoring services, in order to help companies elaborate a strategy for international expansion.
- Promotional operations in order to foster partnerships with companies outside.

mobilead

MobiLead is the official provider of QR+ of the France Pavilion at Mobile World Congress. Since 2008, mobiLead develops and operates an exclusive NFC and QR Code cloud-based tag management platform that makes linking upwards of billions of individual manufactured objects to valued added online services cost effective and secure. mobiLead is an expert group leader on NFC, QR Code and Internet of Things (IoT) at AFNOR, the French national organization for standardization and its International Organization for Standardization member body (ISO). mobiLead is an expert on NFC, QR Code and Web of Things (WoT) at World Wide Web Consortium (W3C).

www.mobilead.com

To get more info on each exhibitor on the French Pavillon @ MWC 2014 You may either

 Scan the QR Code with any 2D barcode reader (such as Barcode Scanner on Androïd, Norton Snap, NeoReader, i-nigma on Androïd and iOS).

or

• Tap the NFC tag with any NFC compliant device.

Tiki'labs

For the 1st year, TIKI'LABS provided the whole TIKIMEE of the French Pavilion exhibitors.

Tiki'Labs developed a unique technology that improves digital interfaces. Small screens and increasing amount of data create the need for new interfaces that show more with less. Tiki'Labs offers operational solutions, providing both simple and direct access to content or controls. Our multi level interfaces provide users with more options without the complexity. Based on Tiki6keys[®] technology, we design simple interfaces with more efficient navigation methods. www.tikilabs.com
